

Instrument Review Assignment
RHAB 714 and J714

Instrument Review: For this project you will compare two measures within a category of tests (e.g., interest, aptitude, etc) on a variety of factors (e.g., psychometric characteristics, ease of administration, use for person with a specific disability, etc.). Each student will be assigned a Buros category from which the student will select and compare two assessments (which must be approved by the instructor). Test reviews can most easily be obtained from *Tests in Print* and *Buros: Mental Measurements Yearbook* which is available on-line from the Library Website.

Include these parts in your paper and use headings:

- Introduction
- Write a narrative description of each instrument. Address the 12 criteria outlined on pages 114-115 of the Power textbook in your narrative for each instrument.
- Compare and contrast the instruments based on the criteria addressed in your descriptions of the instruments.
- Provide a rationale for selecting one instrument over another for a client with specific characteristics (e.g. disability, cultural background, career placement, etc).
- Conclusion

Your paper is to be formatted using APA Style and should be free of errors in spelling, grammar and usage. Excellent writers write drafts, proofread, seek feedback from others (peers), and edit their writing.

| | Points Possible | Points Earned |
|--------------------|-----------------|---------------|
| Introduction | 5 | |
| Instrument 1 | 20 | |
| Instrument 2 | 20 | |
| Compare & Contrast | 20 | |
| Rationale | 20 | |
| Conclusion | 5 | |
| APA Style | 5 | |
| Grammar & Spelling | 5 | |
| Total | 100 | |
