About the Cover:

Maxcy Monument on the Horseshoe

Designed by Washington Monument architect Robert Mills, the Maxcy Monument honors Jonathan Maxcy, Carolina's first president from 1804 to 1820. The Egyptian Revival-style monument is a hallmark of the tree-shaded Horseshoe, which is the location of the University's original campus and includes many 19th-century buildings.

History of the University of South Carolina

Chartered in 1801 as South Carolina College, the University of South Carolina was the first state university to be supported continuously by annual state appropriations. In the years before the Civil War, it rapidly achieved a reputation for academic excellence in the classical tradition and was known as one of the best endowed and most distinguished colleges in the United States. Its faculty included Francis Lieber, editor of the *Encyclopaedia Americana* and author of *On Civil Liberty and Self-Government*; the nationally known scientists John and Joseph LeConte; and chemist William Ellet, who produced some of the first daguerreotypes in the United States. By the 1830s, distinguished alumni virtually filled the state's General Assembly. James H. Hammond and Wade Hampton were the most prominent of a parade of future governors, senators, judges, and generals who graduated during the antebellum period.

The pre-Civil War campus included Longstreet Theatre and all the buildings in the area known today as the Horseshoe (with the exception of McKissick Museum). When the voluntary enlistment of all students into the Army of the Confederacy forced the college to close in June 1862, the buildings were used by the Confederate government as a hospital. By the time General Sherman's army reached Columbia in February 1865, the hospital housed wounded Union soldiers as well. A fire soon started that destroyed most of the city, but federal troops helped save the campus buildings from the flames.

After reopening in 1865, the institution went through six reorganizations and name changes during the last decades of the 19th century, while legislators, administrators, and faculties reassessed the institution's goals and struggled to define its mission. Finally in 1906, at the beginning of its second century, it was rechartered for the third, and last, time as the University of South Carolina, with a graduate school.

In sharp contrast to the South Carolina College's antebellum, elitist philosophy, President William Davis Melton in 1925 expressed a far-reaching principle that had emerged in the first quarter of the century: "Education is not a special privilege to be enjoyed by a special few." Thus, in its final

reorganization, the University of South Carolina developed this institutional objective: to furnish both liberal and professional education to the people of South Carolina.

Efforts to achieve this objective were almost immediately hampered by the early arrival of the Great Depression in South Carolina. Enrollment declined, some courses were eliminated, and buildings went without repairs. The situation improved greatly in the late 1930s because of grants from federal New Deal agencies. Then America entered World War II, and the campus was virtually transformed into a naval training base, with payments from the Navy helping the school continue to function during the war years.

Fulfillment of the promise of the early years of the 20th century began in earnest in the 1950s. Since then, dynamic academic expansion and the development of a statewide network of campuses have produced highly diverse and innovative education programs. A commitment to graduate education along with involvement in major research programs has attracted an outstanding faculty.

In keeping with both its 19th-century and its 20th-century heritage, the University continues to promote academic excellence while responding progressively to its educational responsibilities and the citizens of South Carolina. It has committed itself to earning a place in the Association of American Universities (AAU), which includes 60 of the finest institutions of higher learning in America. Pursuing this goal, the University aspires to build upon its commitment to enhancing not only our students' knowledge, understanding, and economic viability, but also their sense of character, empathy, and mutual respect. Such ambitions and ideals were cornerstones of the original college and remain fundamental to the University's purpose in South Carolina and in society.

University of South Carolina Mission Statement

The primary mission of the University of South Carolina, a multi-campus public institution serving the entire state of South Carolina, is the education of the state's diverse citizens through teaching, research and creative activity, and service.

Teaching

The University is committed to providing its students with the highest-quality education, including the knowledge, skills, and values necessary for success and responsible citizenship in a complex and changing world. A particular strength of the University of South Carolina is the excellence, breadth, and diversity of the institution's faculty.

Research

Convinced that research and scholarship, including artistic creation, are essential for excellent teaching, the University pursues aggressively an active research and scholarship program. The University is dedicated to using research to improve the quality of life for South Carolinians.

Service

Another important facet of the University's public mission is service—to its community, state, nation, and the world in such areas as public health, education, social issues, economic development, and family support systems.

Founded in 1801 in Columbia, the University of South Carolina began providing programs in communities statewide in the 1950s and 1960s. At that time, a network of campuses was established in response to community initiative and support for accessible, affordable educational programs principally for local citizens. In the 1970s, the Aiken and Spartanburg (now USC Upstate) senior campuses were granted the authority to award baccalaureate degrees. The Beaufort campus was given this same authority in 2002. While the regional campuses, the senior campuses, and the Columbia campus all pursue teaching, research, creative activity, and service, each does so with an emphasis suited to its individual campus mission.

Flagship Campus in Columbia

As a major teaching and research institution, USC, located in the state capital in Columbia, has long offered a comprehensive range of undergraduate and graduate programs through the doctoral level. With a mission of teaching, research, and service, USC addresses the state's needs for master's level, professional, and doctoral education, for conducting and sharing research, and for responding to statewide and regional demands for educational resources and professional expertise.

The University of South Carolina aspires to national and international stature as it provides equitable access to its opportunities, resources, and activities.

Senior Campuses

Separately accredited by the Southern Association of Colleges and Schools (SACS), Aiken, Beaufort, and Upstate take as their primary mission the delivery of basic undergraduate education to their respective areas. These senior campuses also offer graduate-level coursework through the University's Extended Graduate Campus program, and sometimes offer master's degree programs in response to regional demand.

Regional Campuses

Accredited with USC Columbia by the Southern Association of Colleges and Schools, the regional campuses in Lancaster, Allendale (Salkehatchie), Sumter, and Union principally provide the first two years of undergraduate education, as well as selected associate degree programs mainly for their locales. The regional campuses also provide for the completion of bachelor degrees by offering selected upper-division course work in conjunction with the Aiken, Beaufort, Columbia, and Upstate campuses, as well as some graduate education through the University's Extended Graduate Campus program. In addition to providing these programs, the regional campuses bring the resources of the entire University to citizens throughout the state.

USC Columbia Mission Statement*

Committed to becoming one of the finest universities in America, USC Columbia is dedicated to nationally recognized excellence in its student population, faculty, academic programs, living and learning environment, technological infrastructure, library resources, research and scholarship, public and private support, and endowment. The University is further resolved to enhance the industrial, economic, and cultural potential of the state so that South Carolina and the University can prosper together. USC Columbia recognizes its historic responsibility to achieve overall excellence and to provide South Carolina's citizens a university as good as any in the nation.

One of the oldest and most comprehensive public universities in the United States, the University of South Carolina Columbia is the major research center of the University and its largest campus, enrolling some 17,000 undergraduate students and over 6,500 students in graduate and professional programs. From its location in the state capital, the University offers a range of excellent programs and activities designed to enhance the intellectual, cultural, physical, and social development of its diverse student body. Students can pursue bachelor's, master's, doctoral, and professional degrees in approximately 300 major degree programs. USC Columbia's professional programs in law, pharmacy and medicine, and the magnitude of its graduate programs in areas such as the arts and sciences, international business, public health, social work, and library and information science distinguish it from all other institutions of higher learning in the state of South Carolina. Additional opportunities for personal and career development, including an associate degree program at Fort Jackson, are provided to the citizens of South Carolina through outreach and continuing education activities. USC Columbia offers the most comprehensive array of educational programs in the state, and is the only South Carolina institution classified as a Four Year I by the Southern Regional Education Board.

Students at USC Columbia come from various backgrounds, with different career goals and levels of aspiration. The distinctiveness of USC Columbia lies in the conspicuous diversity that nurtures and stimulates students, faculty, and constituents. USC Columbia aspires to national

and international stature as it provides equitable access to the full range of its opportunities, resources, and activities.

As a relatively selective institution, USC Columbia seeks to attract inquisitive students who have demonstrated academic ability, who are committed to learning, who are capable of self-discipline, and who wish to benefit from the variety of experiences provided by a major university with students, faculty, and staff drawn from throughout South Carolina, the nation, and the world. The University strives to educate graduates who are capable of excelling in their chosen fields, who are dedicated to learning throughout their lives, and who are responsible citizens in a complex society requiring difficult ethical and value-related decisions. By offering its students reasonable freedom to select from among the many experiences available in liberal arts, the natural sciences, the social sciences, the performing and creative arts, and the professions, USC Columbia encourages students to seek their full potential in the broad array of endeavors associated with our various schools and colleges.

A central mission to the University is to advance knowledge and enrich our cultural heritage. To achieve this mission, the University supports a faculty actively engaged in research in a breadth of disciplines including those listed above.

An important mission of the University is to engage the considerable resources of the institution in service to the state and society for the purposes of cultural enrichment, the dissemination of knowledge, and the enhancement of the overall quality of life. USC Columbia's teaching, research, and service programs affect every part of life in South Carolina.

University Libraries

The library resources of the University of South Carolina are housed primarily in the Thomas Cooper Library, the Coleman Karesh Law Library of the School of Law, and the School of Medicine Library. The University of South Carolina holds membership in the Association of Research Libraries.

University Libraries

The components of the University Libraries which are located on the Columbia campus are Thomas Cooper Library, Business Administration Library, Mathematics Library, Music Library, and South Caroliniana Library.

The Thomas Cooper Library is a seven story structure near the geographic center of campus. The Library seats 2,400 people, contains over 3,000,000 volumes, 4,000,000 microfilms, 1,000,000 manuscripts, 300,000 maps, 800,000 government documents and houses the University's special collections. The Library contains a Student Computer Lab, with over 200 IBM and Macintosh networked workstations, 900 locked faculty and graduate student study carrels, and 40 group study rooms.

The staff of the Thomas Cooper Library and its affiliated libraries is composed of 164 full-time and 4 part-time employees and supplemented by approximately 100 student assistants. Sixty-two of the full-time staff are librarians holding faculty positions with appropriate degrees in library science from accredited library schools.

University Libraries hold membership in the Southeastern Library Network, which provides online automated cataloging services and interlibrary lending. Other automated services include an online catalog (NOTIS), online circulation system (NOTIS), online acquisitions system (NOTIS), a CD-ROM network, and online reference service from a variety of vendors. The online catalog is available from off-campus locations.

Coleman Karesh Law Library

The Coleman Karesh Law Library, the largest law library in the state of South Carolina, is located in the Law Center. The Law Library is an integral part of the School of Law, reporting administratively to the Dean of the Law School. In addition to supporting the research and study of the University's law students and law faculty, the Law Library serves the legal research needs of other University students and faculty and the state's legal community and public.

The four-story facility houses a collection of over 300,000 volumes. The focus of the collection is primary and secondary American Law materials, but includes a growing collection of international law materials. The Law Library provides seating for over 600 researchers, including carrels, study rooms, and open table seating.

The Law Library staff consists of 15 full-time employees and 5 FTE of temporary and student employees. The seven librarians of the Law Library staff hold graduate degrees in library science. Four of the librarians also have legal training. The librarians, with the exception of the Director of the Law Library, are members of the Law Library Faculty. The Director of the Law Library is a member of the Law School Faculty.

The Law Library holds membership in the Southeastern Library Network for cataloging and interlibrary loan. The Law Library also participates in the University's automated NOTIS system, utilizing the online catalog, acquisitions, and circulation modules.

School of Medicine Library

The School of Medicine Library is located approximately four miles from the main campus. It is an integral part of the School of Medicine, which is adjacent to the Veteran's Administration Hospital on Garners Ferry Road. In addition to serving the School of Medicine, the Medical Library is an information resource for health care practitioners throughout the state.

The School of Medicine Library contains over 95,000 volumes of highly specialized material relating to medicine and subscribes to over 1,200 periodicals.

The Library staff is composed of 17 full-time employees, seven of whom are librarians who hold faculty positions and possess appropriate graduate degrees in library science. The Medical Library Faculty are tenure-track members of the School of Medicine Faculty.

The School of Medicine Library holds membership in the Southeastern Library Network for cataloging and interlibrary loan. The Medical Library participates in the University's automated NOTIS system.
